Regarding current occupation

The existing house has been occupied by the previous owners since property changed hands in September 2018. This agreement between the current owner and the previous owner affirms that the previous owner may reside on the property until such time that the development proceeds and ground is broken. The previous owner and current owner agree that at the time of vacation, he is not being displaced, as he would have had to move, as a standard condition of property transaction, when he sold 2921 Gosworth to the current owner in 2018.
