DESIGN RATIONALE

- This landscape plan has been developed in conjunction with landscape proposals for the property immediately to the west.
- An expansive central amenity space provides for social activities and is anchored by the sequoia tree.
- A small toddlers play space and residents gardening area are provided within areas that benefit from good surveillance.
- Large slab-form boulders laid in radiating pattern off the sequoia tree unify spaces, draw attention to the tree and provide incidental seating.
- Rich decorative paving design throughout conveys a sense of elegance, flexibility and high quality outdoor environment.
- Public seating under a feature arbor is incorporated within the site frontage treatment.
- Raised planters on parkade roof accommodate roof rain water flow through.
- Masonry garden walls demarcate the edges of private garden space along the frontage and create a visual link to the neighbouring heritage house.
- Emphasis on native planting and strong border planting on the north perimeter.
- Boulevard improvements include 3 new street trees, widened sidewalk on Pandora Avenue.
- A small gardening area containing raised beds allows residents to partake in gardening activities.
- Landscape lighting to be "dark sky" compliant.
